Career Objective

Aspiring Software Engineer seeking to leverage technical knowledge and skills in front-end and back-end development to build high-quality, efficient software solutions.

Technical Skills

- **Front-End Development:** HTML, CSS, JavaScript, React
 - **Back-End Development:** Node.js, Express.js, MongoDB
 - **Programming Languages:** JavaScript, Python basics
 - **Tools & Software:** Visual Studio Code, Postman, Git – versioning system
 - **Operating System:** Windows, Linux
-

Education

Bachelor of Technology (B.Tech) - Computer Science and Engineering

Jawaharlal Nehru Technological University, Jaya Mukhi Institute of Technological Sciences, Narsampet
2025 | 76.3%

Diploma - Electrical and Electronics Engineering (EEE)

State Board of Technical Education and Training, Kshatriya College of Engineering, Chepur
2021 | 65.0%

Secondary School Certificate (S.S.C)

Brooklyn Grammar High School, Metpally
2018 | 85.0%

Certifications

- Completed **Full Stack Development** Training at **OCTACOMM Technologies Pvt. Ltd.** (6 months)
-

Projects

Student Attendance Visualization

- Conceptualized, designed, and built an interactive web-based dashboard for analyzing and tracking student attendance trends over time.
- Utilized HTML and CSS to create a clean, responsive, and user-friendly interface for displaying complex attendance data.
- Leveraged Python for backend data processing — handling large datasets efficiently, cleaning raw attendance data, and preparing it for visualization.
- Developed dynamic charts and graphs to provide real-time insights into student attendance, enabling easier identification of patterns such as frequent absences, seasonal trends, and class-specific statistics.
- Improved data-driven decision-making by transforming raw attendance records into clear, actionable visual summaries.
- Focused on performance optimization and scalability to ensure smooth operation even with large volumes of student data.

Personal Portfolio Projects:
